I have over a decade of experience in designing digital products and love to deliver meaning through design. I have a strong interest in building strong teams, and design systems.

EXPERIENCE

Senior Product Designer

Accelerant AI

March 2025-September 2025

Owned and scaled the design system, driving consistency across products while defining standards, components, and guidelines. Partnered with engineering and product teams to ensure usability, accessibility, and efficient delivery.

Design Manager

Deloitte Digital

May 2022 - 2025

Led cross-functional design teams, managed client relationships, and delivered high-impact digital and brand experiences from strategy through execution.

Senior Product Designer

Kinaxis

July 2020 - May 2022

Developed and led the design of a new vertical in the RapidResponse client, enhanced the design system, and improved the overall product experience through research, design thinking, and product demos.

Lead Product Designer

Rubikloud

July 2019 - July 2020

Led product design at Rubikloud, shaping both retail and AI products. Introduced design thinking practices into roadmap planning and collaborated with clients to define impactful product enhancements.

Lead Designer

Canadian Academy of Cinema and Television

January 2018 - June 2019

Coordinated and lead the creative department at the Academy managing our online products and branding. Developed and designed a new application portal for applicants.

Product Designer

Opensports

January 2017 - January 2018

Designed the Opensports mobile and web clients and introduced a design system to speed up development and design practises.
